

## SUOLO E SALUTE ABOUT GREEN WAR

Suolo e Salute srl confirms that it has been the object of a local search order adopted by the Pesaro prosecutor office and led by the officers and agents of the Judicial Police belonging to the core tax police – financial police in Pesaro and to Central Inspectorate for the protection of food quality and Prevention of Fraud.

The officers took documents related to the involved companies Fa.zoo Mangimi srl and F.Ili Grimaldi & C. Snc, as those companies are Suolo e Salute's controlled operators.

The President, a regional manager and an ex collaborator of Suolo e Salute are under investigation, which is a necessary step in order to check what happened and to verify documents. To these persons no associative crime has been contested.

Suolo e Salute reiterates its strangeness to the events and underlines that, once again, the quick way of information leads to spread non real news such as the contiguity between controllers and controlled companies and the tampering of details.

Suolo e Salute is accredited by Accredia and it operates, therefore, according to high quality standards.

Regarding analytical tests, Suolo e Salute uses only laboratories with accredited test procedures, excluding any kind of mistakes.

Suolo e Salute gave a EU Certification to the controlled companies involved in the Green War operation that followed correct procedures and that is based on documents coming from or validated by other control bodies which followed the import of products.

The company is confident in the future events and it is sure that the Magistracy work will show that the company and its managers are unrelated to the alleged offences.

Suolo e Salute srl underlines that no one working as administrator and nobody directly involved in the company had founded organic companies in Malta or abroad.
